

FRENCH LIME PLASTER

Hand Rubbed, Subtly Undulating, Organically Textured

Decorative Performance Finishing System

French Lime Plaster was developed in response to designers and architects for finishing extensive areas to deliver **beauty, improved quality, and truly easy repair** for **retained vibrancy/freshness** and **lasting value** as an alternative to ordinary painted walls.

BEAUTY

French Lime Plaster is a hand-rubbed, subtly undulating and organically textured plaster. It imparts a soft luminescence and depth to walls in a wide range of texture and color.

DURABILITY

- Repairable – by design to be easy and unnoticeable
- Washable – food stains, dirt etc.

INVESTMENT VALUE/ EXTENDED LIFE CYCLE

- Retained Vibrancy/Freshness – 10 to 20+ years
- Alter Color – in future for 25 % of original cost

PRODUCT DESCRIPTION

- Fast-setting plasters modified with lime, stains, sealers and glazes
- Interior application only
- Range of smooth, sculpted, delicately laced and finely textured surfaces

SUBSTRATES

- Raw drywall level 2, plaster
- Existing sealed and unsealed textures and painted surfaces
- Converts existing 'problem' surfaces

INSTALLATION

- Consistent signature finish with multiple applicators
- Efficient application on complex architectural detail
- Overcomes unsightly 'cold-joints'
- Coordinates with construction schedules due to application methods and materials
